INSTRUCTIONS AND SCOPE

This section addresses the instructions and scope forming part of the expert's independent quantum assessment prepared for the arbitration.

METHODOLOGY

This section addresses the methodology forming part of the expert's independent quantum assessment prepared for the arbitration.

DOCUMENTS REVIEWED

This section addresses the documents reviewed forming part of the expert's independent quantum assessment prepared for the arbitration.

CERTIFIED VALUE ANALYSIS

Based on the RA Bills Bundle (Exhibit C-3), the certified value of works executed as at the date of this report is Rs. 15,20,00,000, against payments received of Rs. 12,10,00,000.

DELAY QUANTIFICATION

This section addresses the delay quantification forming part of the expert's independent quantum assessment prepared for the arbitration.

DAMAGES COMPUTATION

Applying Clause 22 at 0.5% of the delayed portion's value per week, subject to the contractual cap, the maximum delay damages exposure is computed at Rs. 1,42,00,000.

CONCLUSIONS

This section addresses the conclusions forming part of the expert's independent quantum assessment prepared for the arbitration.

INSTRUCTIONS AND SCOPE

This section addresses the instructions and scope forming part of the expert's independent quantum assessment prepared for the arbitration.

METHODOLOGY

This section addresses the methodology forming part of the expert's independent quantum assessment prepared for the arbitration.

DOCUMENTS REVIEWED

This section addresses the documents reviewed forming part of the expert's independent quantum assessment prepared for the arbitration.

CERTIFIED VALUE ANALYSIS

Based on the RA Bills Bundle (Exhibit C-3), the certified value of works executed as at the date of this report is Rs. 15,20,00,000, against payments received of Rs. 12,10,00,000.

DELAY QUANTIFICATION

This section addresses the delay quantification forming part of the expert's independent quantum assessment prepared for the arbitration.

DAMAGES COMPUTATION

Applying Clause 22 at 0.5% of the delayed portion's value per week, subject to the contractual cap, the maximum delay damages exposure is computed at Rs. 1,42,00,000.

CONCLUSIONS

This section addresses the conclusions forming part of the expert's independent quantum assessment prepared for the arbitration.
