RECORDS

RECORD 1 — Death Summary, Sassoon General Hospital

Date: 14.02.2025
Patient: Mahesh Deshpande

Records sudden cardiac arrest as the cause of death on admission to the casualty department; the admission history recorded from the family does not note any antecedent history of hypertension or related medication.

RECORD 2 — ECG and Casualty Treatment Notes

Date: 14.02.2025
Patient: Mahesh Deshpande

Records the resuscitation attempt and ECG findings on admission; no anti-hypertensive medication or prescription was found on the patient's person or reported by the family at the time of admission.

RECORD 3 — OPD Consultation Note, Dr. S. R. Kelkar

Date: 05.01.2025
Patient: Mahesh Deshpande

Routine general check-up approximately six weeks before death records blood pressure as 128/82 mmHg, described as within normal limits, with no diagnosis of hypertension recorded.

RECORD 4 — OPD Consultation Note, Dr. S. R. Kelkar

Date: 10.08.2023
Patient: Mahesh Deshpande

Annual general check-up conducted after the Policy was issued records blood pressure as 130/84 mmHg; no hypertension diagnosis or medication is noted.

RECORD 5 — Sassoon General Hospital -- Reply to Query of Complainant's Advocate

Date: 15.07.2025
Patient: Mahesh Deshpande

States in terms that the hospital's OPD register does not show any entry for the Life Assured on 14.02.2021 or on 24.02.2021, the two dates respectively relied upon in the Repudiation Letter and the Investigator's Report.
